

THUNDERSTORMS

THUNDERSTORMS CAN MAKE A LOT OF NOISE. THE NOISE CAN BE LOUD. SOMETIMES THERE IS A BRIGHT FLASH OF LIGHTENING. PEOPLE MAY FEEL SCARED BECAUSE THERE ARE LOUD THUNDER NOISES AND BRIGHT FLASHES OF LIGHTENING.

WHEN THERE IS A THUNDERSTORM, THERE IS USUALLY RAIN. THE SKY USUALLY GETS DARK. SOMETIMES THE WIND BLOWS.

THUNDERSTORMS ARE BAD WEATHER. IT CAN BE DANGEROUS TO BE OUTSIDE WHEN IT IS LIGHTENING. WHEN THUNDERSTORMS ARE VERY DANGEROUS, THE WIND BLOWS VERY HARD, AND TREES COULD FALL.

DURING A THUNDERSTORM, IT IS SAFE TO BE INSIDE. THUNDER WILL STILL BE LOUD, RAIN WILL STILL FALL, AND LIGHTENING WILL STILL FLASH, BUT PEOPLE INSIDE OF A BUILDING OR INSIDE OF A CAR WILL BE SAFE.

SOMETIMES, THE POWER WILL GO OUT, AND THE LIGHTS WILL GO OFF. IF THIS HAPPENS, IT IS USUALLY BECAUSE A TREE FELL ON THE POWER LINE. DOMINION POWER WILL SEND WORKERS TO FIX THE POWER ONCE THE THUNDERSTORM STOPS. IF THE LIGHTS GO OUT, IT WILL BE OKAY. PEOPLE USE FLASHLIGHTS OR OTHER THINGS TO MAKE LIGHT.

THUNDERSTORMS WILL NOT LAST FOREVER. THEY WILL PASS. THUNDERSTORMS CAN BE SCARY, BUT THE THUNDER WILL STOP BEING LOUD AND THE LIGHTENING WILL STOP FLASHING. IF THE POWER HAS GONE OUT, DOMINION WORKERS WILL FIX THE LIGHTS WHEN THE THUNDERSTORM IS FINISHED
